

Model : RS-101 / 102

AN ISO 9001-2008 COMPANY

LOAD INDICATOR

Applications :

- *Batch control
- *Automatic industrial feeding system
- *Filling machine
- *Packaging machine
- *Weight indicator
- *Test equipment
- *Force, torque, stress and pressure measurement and transmittion

Features :

- *6 digit 7 Segment LED Display
- *0.02% of full scale accuracy
- *Manual or auto tare control
- *Panel mount industrial grade cabinet
- *Field programmability with non volatile memory
- *Power supply : 230VAC, 50Hz
- *Upto 50000 Usable Counts

Options :

- *Can be configured for 3 step gate control for full,medium and dribble flow control
- *Linear signal transmittion in the form of 0 to 10 Volt DC or 4 to 20 mA DC
- *Control out put in the form of relays up to 4 nos.can be provided
- *Table top or panel mount cabinete
- *Peak hold display, RS-232C Port, Modbus Communication
- *Serial or parallel port for computer or printer interface
- *Output : Linear 0 to 10 V DC or 4-20 mA DC outpur corresponding to input by 16 bit D to A Conversion.
- *Various Sizes Available :- (1) 48X96mm (2) 96X96mm (3) 76x152mm - As per Above Image
